**Course Description:**

This is an introductory course in Psychology. It presents an overview of the basic Psychological processes. The theoretical as well as the practical aspects of these processes will be addressed. By understanding the various mechanisms that govern the various psychological processes you will have an appreciation for and an understanding of the field of Psychology and its various disciplines. This course, in conjunction with Psychology 1050, provides the foundation for more specific and advanced level courses in Psychology.

**Additional Information:**

1. The format of each exam will be discussed in class.
2. Exam grades are final and there is no substitute work for your poor exam grade.
3. The nature and topics of your written paper will discussed in class
4. It is your responsibility to read each and every chapter and assigned reading (if any) and attend all lectures.
5. Lectures will not always cover material in your chapters. Lectures may cover topics and include materials that are not covered by your textbook. It is therefore imperative that you attend every class as your exams may include materials from the lectures that are not covered by your textbook.
6. Cheating and plagiarism will not be tolerated and there will be penalties. You should consult the section on cheating and plagiarism of current GPRC calendar.
7. It is expected that students will display a professional attitude and behaviour. These attitudes and behaviours are many and will be discussed in class. Any violation or misconduct may result in dismissal from the class.

8. Talk to me if you have concerns or you are experiencing difficulties that may have negative impact on your academic performance.
